My Dear Granddaddy
enclosed find your
usual Christmas Che
at present we are all in
as usual. our immediate
family were all at Blm
for Christmas had a very
enjoyable time all were
present John included very
it didnt include you and
family. I would like to be
able to include Lewis and
you to come here this year
could be

2

I feel confident if times
were near for one year he
would be satisfied there is
plenty of business here for the
and good pay for the right
people beside a nice way of
living as well as a chance
to accumulate from this
I fear you will never do
much there as opportunities
are much less there than he
I would for yourself and family
besides ask both of you to give
this your most serious
consideration as I feel confident
you all in time be greatly
benefit

one seldom does as well at
home as they would somewhere
else. I would like to insist
on Lewis coming here this
for a time then perhaps he
could form an opinion which
could benefit him and you all
I am glad to do well is where
has plenty to do and good
for it. Thus furnishing
good comfortable way of living
never knows much about
other place until he sees it
you were here and can correctly
judge the difference if here
he could do same. I don't like
he and you there as I know
you could do much better to
here.

I wish you all a very
New Year and that you
will be with it and hope you are
all well. Perhaps you may
think I should not write you
in this manner, but it is the
interest I have in you all that
prompts me to do so.

all send there love
and best wishes to you all

affection your
Grandfather
